Product Management

In Any organization, product or items can be categorized into following base categories/types:

1. Finished Goods
2. Semi Finished Goods
3. Raw Materials
4. Consumables
5. General Items
6. Services
7. Non-Value Items

Ultron organizes product catalog using these base categories.

Product or items within each category can be further tagged with various other categories & sub categories.

Finished Goods

To create Finished Goods go to Product Menu -> Select Finished Goods.

This will bring you to the list of the existing Finished Goods.

Create New Finish Goods

To Create the New Finish Goods, from the list view click on the Add New button or sign

The screenshot displays the ULTRO application interface. On the left is a purple sidebar menu with the ULTRO logo at the top. Below the logo is a 'Search Menus' input field. The menu items are: DashBoard, All Activities, My Activities, Products (highlighted with a red box), Partner, CRM, Sales, and Purchase. To the right of the sidebar is a main content area. At the top of this area is a hamburger menu icon. Below it is a list of menu items: Product Reports, Product Dashboard, Finished Goods (highlighted with a red box), Product Variant, Semi Finished Goods (WIP), Raw Materials, General Items, and Non Values Item. Below the menu is a table titled 'Finished Goods'. The table has columns: Product Name, Default Code, Product Category, Sales Price, UoM, and DefaultSupplier. The 'Add New' button in the top right corner of the table is highlighted with a red box. Below the table, there is a row of data with the following values: Knob Voltage (Plated), F00004, No (e).

and it will open the page where you can enter all of the details and save it.
